### General Provisions.

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

Sect. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain

officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 6. All fines and penalties for the violation of any By-Law shall, when received, inure to the use of the Town, and be paid into the town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any town officer or board of town officers, issued under any of the By-Laws of the town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the pro-

visions of the By-Laws of the town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the town may be repealed or amended, or other By-Laws may be adopted, at any town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

## CHAPTER 2.

### TOWN MEETINGS.

SECTION 1. The warrants for all town meetings shall be directed to the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of town officers shall be held upon the first Monday of March, the polls to be open at seven o'clock in the forenoon, and after the election of a Moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

Notice of such hearing shall be given, at least seven days prior thereto, by posting a written notice thereof in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within five hundred feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

structure, or an applicant for a permit to erect, move or alter a building or other structure, is dissatisfied with any order or decision of the Inspector made in any of the proceedings prescribed in this Chapter, the matter shall be referred to the Selectmen, who, within one week from said reference, shall hear the parties, and after taking such expert opinion as may seem to them to be necessary, give their decision. In case the decision of the Inspector is affirmed, the expense of any expert opinion taken by the Selectmen shall be paid to the Town by the owner or applicant on demand; otherwise such expense shall be borne by the Town.

The Committee appointed at a special meeting of the inhabitants of Milton, held July 21, 1905, to procure plans and specifications for the remodeling of the Edison Electric Illuminating Company building on Central Avenue, for use as a Police Station, presents the following report, viz:

As the Committee had no appropriation of money at their disposal, they decided to invite two architects, E. R. B. Chapman of Stoneham, and Bradford Hamilton of Milton, to furnish plans, specifications and estimates for inspection and consideration with the understanding that the plan deemed the most satisfactory would be recommended for adoption by the town at the next annual town-meeting in March, 1906.

After careful consideration of both plans the Committee unanimously selected the plan presented by Mr. Hamilton, and in accordance with our agreement, we do hereby recommend the adoption of said Hamilton plan by the town.

Art. 57. *Voted*, To accept the following report of the special committee on Town By-Laws, and that the committee be thanked and discharged.

*To the Inhabitants of the Town of Milton.*

The undersigned, who were at the annual meeting of the Town held in March, 1905, appointed a special committee "to investigate the By-Laws of the Town, regarding town ways, and report back to the Town at the next annual meeting," hereby submit the following report and recommendation:

After having organized and considered the matter, the committee gave a public hearing (which was duly advertised in the *Milton Record*) to all persons interested, at the Town Hall, on Friday evening, January 26, 1906, at which all the committee were present, and six other persons.

It was claimed by some of those who addressed the committee that the existing By-Law works a hardship upon those inhabitants of the Town who wish to develop land but have not money capital to invest in the construction of roads or streets.

It was also suggested that the By-Law should be made to provide that a certain amount of money spent upon a road should entitle it to acceptance; or a certain amount of taxation received from the abutting land should give the same right. The difficulty of arranging the matter according to money spent or taxes received, was recognized in another argument, and it was suggested that the By-law should be so altered as to leave a discretion in the Board of Selectmen, just as they now have to pass their own judgment with regard to laying out a highway in any ordinary case.

After the hearing above mentioned was closed, the committee deliberated upon the question, and they are unanimous in recommending to the Town as follows:

That the last sentence of Section 2, of Chapter 10, of the Revised By-Laws of the Town, be amended by striking out the words "well built; and that as constructed it is equal to the average construction of the existing highways of the town;" and by inserting in lieu thereof, these words, namely: "built suitably for public travel and use; and will not in the opinion of said engineer, be an unusual source of expense for maintenance as a public way." So the whole section as amended will read as follows:

"Section 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a town way, the document relating to such laying out, shall be accompanied by a certificate of a competent civil engineer which shall be filed in the office of the Town Clerk, together with said document, before such way shall be accepted,— the said certificate shall state that such private way is built suitably for public travel and use; and will not in the opinion of said engineer, be an unusual source of expense for maintenance as a public way."

The committee further report that they have made no expenditures from the fund apppropriated for their use in con-

nection with the foregoing investigation and report, and they ask that the committee be discharged.

Respectfully submitted,

# THE SEVENTIETH ANNUAL REPORT OF THE BOARD OF SELECTMEN.

The town's finances continue to be in good condition, the expenditures in every department having been kept within their several appropriations, and it has not been necessary to make any transfers from the contingent fund during the year. The appropriation for street watering was the only one found too small, and work was discontinued several weeks too soon. There has been received $354.45 from old sidewalk and street assessments, and the remainder are in process of settlement. $29,500 of our bonded indebtedness has been paid during the year, and there is now outstanding and to be paid $382,000. The amount of taxable personal property showed again this year a gratifying increase, and there is now reason to believe that it will continue to increase in the future.

Several very important questions of taxation that may seriously affect the interest of the town, are likely to come before the present legislature, and it would seem wise for the town to employ legislative counsel to look after its interests at the State House.

The tax rate was reduced $1.30 this year, and will be considerably lower next year in the absence of adverse legislation.

The building purchased of the Edison Electric Illuminating Company on Central avenue has been remodelled and fitted up for a police station, within the appropriation, and is now completely and substantially rebuilt, and well adapted to its present use. The work on the building

was done in a thorough and workmanlike manner, and the town now has an attractive building substantial in its construction, thoroughly up-to-date, with ample accommodations for many years to come, and as good as any Police Station, in any town in the State. The total cost of remodelling the old building, installing a new police signal system, furnishing, and grading, was $15,875.52, and all the work was done to the entire satisfaction of the Board of Selectmen, due in a measure to the efficient superintendence of the Chief of Police.

The gypsy and brown-tail moths are still with us, and notwithstanding the very efficient work for their extermination during the year by the tree warden, it will be necessary to continue this work at a larger expense than heretofore. We again desire to call the attention of every land owner to the important necessity of looking after his own premises, and keeping them free from these and other pests.

The condition of the streets is, in the main, good; the rapidly increasing number of heavy and rapidly moving automobiles has impaired our best roads so much that the time has come when it seems important that some new method of road construction be adopted to meet the new conditions of travel, and we have asked for a small increase for streets, so that some attempt may be made to determine the best way of preserving them.

The expert employed by the Auditors has made a careful investigation of the finances of the Town, and find that all amounts have been correctly accounted for by all officers, except that it was found that the Tax Collector, through his misunderstanding of the tax warrant, had not charged himself with the amount of the poll taxes for the years 1903, 1904, 1905, and upon having the matter explained he promptly paid over to the Treasurer the amount of the poll taxes for these years.

There has been no change in the management of any of the departments under the charge of the Selectmen, and the Board desires to thank the head of each department for his intelligent and efficient co-operation in any attempt to improve the service, and render efficient the very large expenditures authorized by the town.

Good order has been preserved in the town during the past year, the members of the Department having performed their respective duties in an energetic and faithful manner, and by so doing have demonstrated the fact that they have at heart the good of the town and the protection of her people and their property. The By-Laws of the town and the State laws have been rigidly enforced, so far as lay in the Department's power. We have been very fortunate during the year that we have not had any crimes of a serious nature.

## THE FORCE.

The discipline of the force has, in the main, been well maintained and the many and varied duties have been performed in a highly intelligent and conscientious manner. I again tender them, one and all, my sincere thanks for their earnest co-operation.

## CONCLUSION.

I wish here, in behalf of the Department, to especially thank your Honorable Board and the Committee on new Police Station for the comfortable quarters that we now enjoy. It is a great improvement over the old one and should be appreciated by every member of the department and citizens as well, and is a credit to the town as a public building.

An entirely new Gamewell Police Signal desk has been installed, and all the boxes have been changed, and today the department is equipped with a signal service that cannot be surpassed.

In conclusion, allow me to extend to your Honorable Board and to the citizens of Milton, my sincere thanks for the many courtesies rendered and advice given during the year.

Respectfully,

MAURICE PIERCE,

*Superintendent of Police.*

# ENGINEERS' REPORT.

*To the Honorable Board of Selectmen:*

Gentlemen,—The Board of Engineers herewith presents its annual report.

The past year has, with two startling exceptions, been a very quiet one for this department. The two startling exceptions referred to, October 15 and November 1st, show clearly that not only is our Department none too large, but that we are most fortunate to have neighbors able and willing to help us.

There have been no building fires classed as incendiary during the year.

Mr. C. Wilder Holmes resigned as a member of the Board of Engineers in April, and two engineers have managed the affairs of this department for the past eight months. Our department is so small that a large Board of Engineers is not desirable. We think two engineers, both permanent men, would give the best results obtainable.

Two new horses have been purchased to take the place of the same number disabled and disposed of.

All buildings and equipments have been kept up to the proper standard.

One new fire-alarm box has been added to the system, Box 142 on Cheever Street. Five old style boxes have been replaced with boxes of modern type. This leaves thirteen old boxes to be renewed.

The discipline of the men has been most satisfactory, especially in view of the long waits between alarms.

Milton has responded to twenty-one calls to Boston; and Boston has responded to seven calls to Milton.

A twenty-five gallon chemical tank, duplicate of those on Hose 4 wagon, West Section, was purchased and placed on Hose 4 pung for winter use. With money provided by a spe-

cial appropriation a new combination wagon for Hose 2, East Section, has been purchased. This wagon was placed in commission about September 1, and has proved most satisfactory. It is a piece of fire apparatus that is up-to-date in every respect, and costs no more to maintain than the former straight hose wagon, though it is vastly more efficient. The old hose wagon we traded in part payment for a chemical tank to be used on Hose 2 pung in the winter.

We have had the boiler on the steam fire engine inspected. This inspection shows no visible defects, and the boiler might last a few years longer, but the inspector, on general principles, advises that a new boiler be provided. The average life of a fire engine boiler is twelve years; this boiler is twenty years old. As there is no good reason for taking chances, we advise that the fire engine be given a new boiler and a general overhauling, at an estimated cost of $1,000.

We have had the chemical engine carefully inspected. This piece of apparatus was put in commission in the autumn of 1881, so that it is now twenty-five years old. It was such a well-built machine that, while it has done lots of rough hard work, it has cost very little for repairs. The inspection shows that it is now wearing out rapidly in all its parts; the tanks especially are so deteriorated that they will last but two or three years longer. It would cost almost as much to overhaul and repair this machine as to buy a new one. We therefore recommend that this machine be kept in service for two or three years longer, making only necessary running repairs upon it, and that then it be replaced with a new piece of apparatus.

In connection with this we desire to refer to that part of our last year's report where a fire station and a combination wagon in the village section were recommended, and possibly a piece of fire apparatus in the Scotch Woods section suggested. During 1906 the advantages of automobile fire

apparatus have been brought very much to the front. While the first cost is high, the low cost of maintenance and the speed with which such apparatus can respond to alarms makes it especially advantageous for country towns where the fire apparatus has to travel long distances. While we are not yet ready to recommend the purchase of such a piece of apparatus, we believe that with the rapid improvements being made yearly in automobile construction, an automobile combination wagon to replace the present chemical engine, and located in the present chemical engine house, would cover both the village section and the Scotch Woods section, to say nothing of the rest of the town, in a perfectly satisfactory manner and would cost very much less than any other plan.

There are twelve permanent men in the Department. They have two days off a month, and have asked to be allowed three days off a month. Their request seems a very reasonable one, but we have been obliged to refuse it, as it would make it impossible to keep up the routine work that must be done. We request that our annual appropriation be sufficiently increased to enable us to employ one more permanent man, as thereby we can give all the men one day off in ten besides strengthening the Department.

For the maintenance and current expenses of the Department we recommend an appropriation of twenty-three thousand dollars ($23,000).

Respectfully submitted,

George F. Choate,
Ellerton P. Whitney,
*Board of Engineers.*

# REPORT OF THE INSPECTOR OF WIRES.

*To the Honorable Board of Selectmen:*

GENTLEMEN,—I herewith submit my report for the year ending December 31st, 1906.

### Interior Wiring.

The interior wiring of 91 buildings for the installation of light and power was inspected the past year by this department, requiring 281 visits. Sixty-four permits were granted the Edison Electric Illuminating Company to supply service. I find that most of the contractors doing this wiring are disposed to comply with the rules both of the town and of the National Board of Underwriters, and they are usually prompt in notifying this department.

### Overhead Construction.

All pole lines throughout the town are in very satisfactory condition. A few poles have been set on new locations. The permits granted were mostly for replacing defective poles and the re-location of old lines. The Edison Company have set a large number of new poles on Central Avenue, Pleasant Street and Edge Hill Road to replace defective ones, thereby greatly improving the condition of these lines.

The old iron wire of the town's Fire and Police Alarm on the Blue Hill Avenue line should be replaced with covered wire. There are an unusually large number of high tension wires on this line, and the fact that a large portion of the town wires have been in service for the past twenty-five years makes it necessary to replace these wires both for safety and service.

I would again warn all citizens of the extreme danger to life in touching or handling any wire they may find broken from its supports or lying on the ground. All such wires should be promptly reported to this department that they may receive immediate attention.

For the purchase of materials for routine repair work during the ensuing year I recommend an appropriation of $250, and for the renewal of Fire and Police Alarm wires on Blue Hill Avenue, an appropriation of $1,000, a total appropriation of $1,250.

Respectfully submitted,

George F. Choate,
*Inspector of Wires.*

# REPORT OF THE BOARD OF HEALTH.

The Board of Health of the Town of Milton has the honor to present to the Town its report for the year ending with December 31, 1906.

The following appointments were made: Henry B. Martin, to be agent for signing burial permits; L. E. Young, to be inspector of plumbing and examiner of applicants for plumbers' licenses; B. F. Murray to be deputy inspector of plumbing; Dr. W. A. Draper, to be agent for the Board of Health; S. A. Meagher was given a permit to carry on the business of rendering oil, tallow, etc. Peter McIntyre, to slaughter cattle and hogs for food. J. R. Lawrence to empty vaults and privies.

The number of cases of contagious diseases reported to the Board for the past three years has been as follows:

| | 1904 | 1905 | 1906 |
|---|---|---|---|
| Diphtheria | 19 | 28 | 17 |
| Measles | 59 | 70 | 60 |
| Scarlet Fever | 13 | 16 | 15 |
| Smallpox | 0 | 0 | 0 |
| Typhoid Fever | 9 | 4 | 10 |
| Tuberculosis | 2 | 4 | 7 |

Thirty-three permits have been issued for sewer connections, in each case the Inspector of Plumbing having made the necessary examinations.

John R. Lawrence has cleaned out 120 cesspools and 49 vaults.

There have been 94 deaths in the town during the year, giving a death rate 13.05 per thousand inhabitants.

| | 1903 | 1904 | 1905 | 1906 |
|---|---|---|---|---|
| Number of deaths in Milton, | 114 | 110 | 80 | 94 |
| Rate per thousand, | 16.14 | 16.31 | 11.34 | 13.05 |

During the year 1906 there has been paid to the Boston City Hospital the sum of $257.71 for the care of patients found to have a settlement in Milton.

It is probably not generally known that the settlement of every patient taken to the Boston City Hospital is looked up, and if such settlement is found to be elsewhere than in Boston, and the person cannot afford to pay for his own care, the town or city in which the person has a settlement is notified, and eventually has to pay the hospital charges.

Whenever the Board of Health receives such notification the correctness of the settlement is investigated by the agent employed by the Poor Department, and if it is ascertained that the person has a settlement in Milton the charges have to be paid out of the Board of Health appropriation, according to the Public Statutes.

The following bills have been approved during the year:

# REPORT OF THE SUPERINTENDENT OF STREETS.

*To the Honorable Board of Selectmen:*

GENTLEMEN :—I herewith submit the annual report of the Street Department for the year 1906.

The work of this department was carried on in the same manner as during the preceding year.

The severe weather conditions of the winter season of 1905 and 1906 together with the digging up of the streets, caused by the extension of the water, sewer and gas systems, and the house connections with the same have caused some of the streets to be in a rather poor condition.

Some of our streets built of gravel and light macadam, on clay soil, with no drainage of any kind, will not resist the action of the frost, and therefore become very soft and are disagreeable to travel upon. Where there are no sidewalks they are very undesirable for foot travel.

The increasing automobile travel through our town also affects the surface of the streets, particularly the macadam road; at the present time there seems to be no remedy for the same, although different experiments have been tried in many cities and towns.

During the early part of the season much repair work was done, while the usual spring cleaning was going on.

The stone crusher plant, which was located on Randolph Avenue for a number of years, was moved to the Town Lot on Blue Hill Avenue. There is a large supply of stone on the ground and the location is very convenient for nearly all sections of the Town. The whole plant is in very good condition and in its present location should be of very good service to the Town for a number of years.

That part of Canton Avenue known as Mingo Hill, nearly all solid ledge, was lowered about four feet.

This work was a great improvement and should be completed next year by widening to the property lines.

Brook Road was resurfaced with crushed stone between Lincoln Street and the Hinckley estate.

Centre Street was regraded and resurfaced with crushed stone from Churchill's Lane to Dudley Road. This street was in a very bad condition and required much work.

Canton Avenue between Voses Lane and Whitelawn Avenue was resurfaced with broken stone.

Eliot Street was regraded and resurfaced with crushed stone from Central Avenue nearly to Oak Road.

The gas main and service pipes were laid in this street, as were also the sewer pipes, before the surfacing was done.

Maple Street was graveled and repaired its entire length.

Central Avenue, near School Street, was widened to the property line; this work required a large amount of filling, which was obtained while regrading Eliot Street.

Blue Hill Avenue was graveled from Robbins Street to the Merritt estate; the gravel was taken from the Blue Hill Avenue pit.

This Street was resurfaced with crushed stone from Brush Hill Road to Canton Avenue.

Canton Avenue was repaired with gravel and crushed stone from Blue Hill Avenue to the Hemenway estate.

A stone drain was laid in Hicks Hill to drain the roadway; this hill was very soft and wet, caused by the springy nature of the land. The material taken from this drain was used in widening the street below the hill.

Another stone drain was laid in Milton Street from Brush Hill Road to the Charles Rackemann estate; this street being also very springy, the material taken from this drain was used in widening the Brush Hill Road approaches to Pauls

Bridge, a guard rail fence was built at the same place, which added greatly to the appearance and safety of the street.

Adams street was repaired with broken stone in many places.

Huntington Road was partly built with grout and gravel from the Squantum Street pit.

Many other streets were repaired with gravel and crushed stone.

Surface drains were laid, catch basins were built and connected with the same in many streets in different parts of the town.

All the existing drains and catch basins were thoroughly cleaned and repaired when necessary.

Brook Road between Canton Avenue and Randolph Avenue was built as voted by the Town.

## Sidewalks.

There have been no permanent sidewalks constructed during the past year.

Nearly all of the gravel sidewalks have been repaired with stone dust and are in very good condition.

There is a large demand for sidewalks where the roads are narrow and foot travel is more dangerous from automobiles.

Building sidewalks on some of these streets will be expensive, as much filling will be required.

## Street Watering.

This work was practically the same as of other seasons, and if more stand pipes were erected other streets could be sprinkled without any additional expense.

As street watering seems to be the best remedy for the dust nuisance it seems to me that all the streets should be watered.

In concluding this report, I would most respectfully ten-

der my sincere thanks to your Honorable Board for your assistance and suggestions during the past year; to the citizens of the Town for their very courteous consideration and advice, also to the employees of the Street Department whose work has been most efficient.

# REPORT OF THE WATER COMMISSIONERS FOR 1906.

*To the Citizens of the Town of Milton:*

The Water Commissioners respectfully submit the following report of their operations for the year 1906.

At the annual meeting in March, Charles S. Pierce was elected for the term of three years, to succeed himself, and the Commission organized with Mr. Pierce as Chairman. During the year it became necessary to purchase a new wagon to replace one which was worn out, and two horses were purchased to replace two which were sold, having outlived their usefulness to the department.

At the annual meeting in March an appropriation of $7,000 was made for the extension of mains. To this sum we have been able to add an additional amount from our income, and the total has been expended as follows:

| | |
|---|---|
| *1467 feet of 8-inch pipe on Centre Street, costing . . | $1,649 81 |
| 1128 feet of 8-inch pipe on Reedsdale Road, costing . . | 2,138 90 |
| 2435 feet of 10-inch pipe on Canton Avenue, costing . . | 5,229 96 |
| 1512 feet of 8-inch pipe on Hillside Street, costing . . | 2,222 16 |
| 204 feet of 6-inch pipe on Blue Hill Terrace Street, costing . | 375 07 |
| Total . . . . . | $11,615 90 |

NOTE.—*The actual cost of the Centre Street extension was $2,283.25 but of this amount, $633.44 was borne by private subscription, so that the cost to the town is the amount indicated.

The principal construction work in private property during the year has been an extension of the service in the Milton Cemetery, and a long line of 6-inch pipe laid in property of Mr. Joseph Brewer, on Canton Avenue, at his expense, in order to give fire protection and a water supply for his private house. At the present time there are 288 hydrants upon public streets, and 16 on private land, mak-

ing a total of 304. This is an increase during the year of 8 public and 3 private hydrants. At the present time there are 1232 active services, as against 1160 a year ago, the increase being 72—a very encouraging number.

The receipts of the Department from December 31, 1905, to December 31, 1906, excluding service work for which it has been reimbursed, were:

| | |
|---|---|
| From water takers . . . . . | $29,439 52 |
| (An average of $23.90 per taker.) | |
| *From street watering . . . . . | 5,187 17 |
| ($671.92 being paid by Metropolitan Park Commission in 1906.) | |
| Interest on deposits . . . . . | 109 09 |
| From repairs and incidentals . . . . . | 1,861 68 |
| A total revenue of . . . . . | $36,597 46 |
| To this must be added Hydrant service appropriation . . | 9,000 00 |
| Appropriation for extension of mains . . . . . | 7,000 00 |
| Making available for the work of the department a total of | $52,597 46 |

*The 1905 bill for street watering was not paid until early in 1906, so that in making estimates, the amount of that bill $2,403.24, must be deducted.

Although the cost of water has been reduced a little over 5 per cent. during the past year, the receipts from the water takers have increased about $700.00 on account of the increased number of takers.

| | |
|---|---|
| The expenses during the past year, excluding construction and service work, were . . . . . | $11,266 22 |
| Metropolitan water . . . . . | 14 070 41 |
| Interest on 279 bonds . . . . . | 9.765 00 |
| Total . . . . . | $35,101 63 |

NOTE—A detailed report of expenditures will be found elsewhere.

The following table is intended to show the cost to the town of its water system, and the payments which have been made on account of the water loan:

| | | |
|---|---|---|
| Amount paid for Milton Water Co. | | $199,608 35 |

| Making a total of | | $340,155 02 |
| Less balance reverting in 1904 | $8,908 09 | |
| " " " " 1906 | 220 59 | 9,128 68 |

| " " " " " 1904 | 11,000 00 |
| " " " " " 1905 | 11,000 00 |
| " " " " " 1906 | 11,000 00 |
| | $44,000 00 |

Last year the minimum charge for buildings having not more than one fixture was reduced from $8.00 to $7.50; for buildings having more than one fixture, from $16.00 to $15.00, and a reduction of 5 per cent. from the existing rates was granted to consumers using more water than was allowed for the minimum rates. The purpose of this reduction was to give the water takers the benefit of a saving in the cost of water furnished by the State, the State statute as to the apportionment of the cost of Metropolitan Water District having been changed. This statute resulted in a saving to Milton of about $2500, but since that time the statutes have again been changed for the relief of Boston, and the assessments of the other cities and towns will be somewhat increased. Milton's assessment for the coming year is estimated at $15,000.

In our last report we recommended the laying of mains in Canton Avenue, in order to enable us to supply Scott's woods with a better pressure, and in accordance with our recommendations a large appropriation was granted. The cost of doing the Canton Avenue work was so large that the

funds available for extensions in Hillside Street were comparatively small. Some residents of the Scott's woods district expected that the appropriation at the 1906 March meeting was to complete the work in Hillside Street, and were therefore disappointed. A reference, however, to our last report will show that previous to the March meeting, we contemplated and recommended the action subsequently taken. We do hope, however, to complete the work in Hillside Street during the coming year, the estimated expense being about $5,500.

As a result of urgent requests, the Metropolitan Water & Sewerage Board has consented to extend its high service pressure in Canton Avenue from Robbins Street to Highland Street, in Highland Street, Reed Street, Randolph Avenue south of Reed Street, and Hillside Street. We hope that this action will give adequate pressure to the high levels in Highland and Hillside Streets.

We estimate that the cost of running the department, purchasing water and paying interest on bonds will, during the coming year, amount to about $36,000. Our receipts, if the hydrant service appropriation remains as in the past, should be about $43,000. We ask for an appropriation of $4,000 for extension of mains.

Respectfully submitted,

Charles S. Pierce,
Robert F. Herrick,
Thomas B. Gordon.

# REPORT OF THE INSPECTOR OF PLUMBING.

*To the Honorable Board of Health:*

GENTLEMEN :—I beg leave to submit the following report for the Department of Inspection of Plumbing for the year ending December 31, 1906.

There have been issued one hundred thirty-four (134) permits to perform plumbing. The valuation of this work being, approximately, forty-seven thousand, five hundred ($47,500) dollars.

Five (5) plumbers renewed their licenses, and eight (8) plumbers from other towns and cities registered at this office.

Thirty-nine (39) buildings were examined in regard to drainage and ventilation, preliminary to being connected with the Town Sewers, and necessary improvements made in many cases.

Respectfully submitted,

LORENZO E. YOUNG,

*Inspector of Plumbing.*

# REPORT OF THE PARK COMMISSIONERS FOR 1906.

*To the Citizens of Milton:*

East Milton playground has had nothing but the annual cleaning up. A little gravel has been sold from the pit, not yet all paid for.

Brook Road playground has had a row of oaks planted, and these trees have proved a failure. A new row will be set out in the spring. Fortunately, the trees which have just died cost the Town nothing, so that only time is lost if next year's planting proves a success. Fresh loam has been spread and rolled, filling up the holes worn by use. The old benches, so far as they were worth it, have been repaired, and new benches placed for the convenience of the players.

The appropriation for improvement of school grounds was, with the concurrence of the School Committee, spent at the Sumner School, where the bank on the road was graded and sown to grass, and a barberry hedge was planted inside the fence, the ground having been dug and manured to a suitable depth.

On Waterside Common we have placed a few more seats. More trees and bushes which died as a result of the digging and filling for the sewer have been removed. Grass is coming up to cover the scar, and a new growth of bushes is establishing itself. The swampy ground at the Mattapan end needs clearing up again.

At Dollar Lane playground a small beginning has been made. A plan of the grounds has been drawn, and stone monuments have been placed to mark the corners and angles.

We ask again for $100 for the general uses of the department, and $100 to be expended on the school grounds.

Respectfully submitted,

NATHANIEL T. KIDDER,
HORATIO A. LAMB,
CHARLES E. ROGERSON,

*Town of Milton.*

# REPORT OF THE TREE WARDEN.

*To the Citizens of Milton:*

A year ago brown-tail moth nests were abundant, especially in the Eastern section of the town. Today they are scarce. This result is owing chiefly to natural enemies of the caterpillars amongst which the most prominent is a fungus which has attacked them. There is reason to suppose that a good many of the nests which were gathered and burned were already rendered harmless by the fungus. This does not constitute a reason for not destroying the nests, as some of the caterpillars might survive even if fungus was in the nest, nor are we to argue that no more trouble is to be had from the brown-tail moths. Another year may not be so favorable to the growth of the fungus. In other words, a perpetual war should be waged on the nests by every property owner. They should by this time be known to everyone, and in fruit trees, where they locate by choice, they are easily seen when the leaves are off.

Tent caterpillars are on the increase again, and should be destroyed before an invasion. They are easily dealt with while the nests are small.

Elm leaf beetles were very abundant this year, and were more generally distributed through the town than in past years. There seems to be no way to deal adequately with these but spraying, and the season for doing this is short, though not so short as in the case of the canker worms. A good deal of spraying was done for these pests, all by a firm outside of town.

I have always shrunk from undertaking the spraying with town apparatus and men, because there is so much of it to do if the work on private places is to be done. And to do the public streets alone seems almost a waste of time and

money, and the shortness of the effective season adds a still more serious difficulty. Nevertheless, I expect to undertake some of the street spraying this year.

### Gypsy Moths.

The suppression of the Gypsy moths has proved to be a very difficult problem. This was to be expected. While they seem to be more generally distributed throughout the town than a year ago, I do not feel certain that this apparent spread may not be in part, at least, owing to the fact that every nook and corner has been searched for them. I am more than ever convinced of the necessity of cleanliness as the ounce of prevention worth a pound of cure. Any place left to take care of itself, where plants grow or rubbish is thrown, offers just the breeding place nature wants for Gypsy moths. Therefore, everyone should watch and keep clean every foot of ground under his control. It is only by the united efforts of the whole community, that these creatures can be kept in check until fungi, parasites, or predatory foes come to our rescue and re-establish the balance of nature, now seemingly so lopsided. That this has in a measure taken place with the brown-tail moths may fairly be taken as an indication that it may be expected with the Gypsy moths. It does not, however, furnish a reason for laying down our arms and waiting to see what happens.

I have now, at the end of the year, been over all the trees belonging to the town, and with one or two exceptions, all of the land of private owners who have applied for this work. It is, of course, charged to the individual in the same way that I have always charged for pruning and chopping. A few have had the work done by outside contractors. Now, I have to clean up the land of those who have not applied for the work or done it in their own way. This is not so advantageous a season for the work as earlier, as snow is a

serious interference with thorough work, and cold makes it harder and slower.

The original object and work of this Department has been thrown into the background by the pressing necessities of the insect campaign. During the caterpillar season, my whole force is diverted from all other work, and put to hunting the caterpillars. Indeed, extra men are taken on during this work. Nevertheless, a good deal of trimming and cutting has been done this year. Fortunately, while the work of pruning is going on, if during the egg season which is long, the Gypsy moth eggs can be treated.

The streets where the greatest amount of pruning has been done this year are Centre Street and Brook Road. A number of scattered places have been done as the cases were most pressing. I do not feel that any street is suffering especially, and yet there are numerous places which must be seen to the coming season.

As is obvious from the financial statement, a larger gang of men is necessary for carrying on the Department, and I feel that I must ask the town for two thousand dollars ($2,000) for the "care and planting of shade trees and the destruction of insect pests injurious to trees," and for five thousand dollars ($5,000) for the special purpose of suppressing the Gypsy and brown-tail moths.

# REPORT OF INSPECTOR OF CATTLE.

*To the Board of Selectmen:*

Gentlemen:—During the past year I have inspected in town, one hundred nineteen (119) stables on one hundred thirteen (113) premises where cattle are kept. I found stables and premises in good sanitary conditions, meeting requirements in regard to light, ventilation, size, water supplies and cleanliness.

I gave a physical examination to eight hundred four (804) cows, nineteen (19) bulls, and two hundred sixty-seven (267) swine, all of which I considered free from all symptoms of contagious diseases.

During the year I quarantined and reported to the Cattle Bureau of the State Board of Agriculture, four (4) cows which showed symptoms of tuberculosis, and which were later destroyed by the Bureau. Besides this I have inspected all carcasses slaughtered in town for market and stamped all free from disease.

Respectfully submitted,

James Spencer,

*Inspector of Cattle and Provisions.*

# REPORT OF TRUSTEES OF CEMETERY.

*To the Citizens of Milton:*

The Trustees of the Cemetery submit the following report for the year ending Dec. 31, 1906:

The Board organized with Samuel Gannett as Chairman, and William H. Kennedy as Secretary and Treasurer. Thomas W. Pond was appointed Superintendent.

The following specified work has been done in addition to the general care of the avenues and grounds:

Ninety interments have been made, six brick vaults built, fifteen headstones reset on foundations, nine foundations for monuments and thirteen for headstones built, one monument moved and lowered, seventeen lots finished which were laid out in 1905.

Seventeen lots have been taken by citizens and three lots sold to non-residents. Six lots have been placed under perpetual care.

At the last annual March meeting the sum of one thousand ($1,000) dollars was appropriated by the Town to extend the water supply in the cemetery. This work was done at a cost of $1,350, the balance of $350 being paid from the general Cemetery fund. This addition carried the water to the highest point of the grounds and has been of great service in keeping the grass, shrubs and avenues in good condition.

By the Treasurer's report you will see that a larger sum was expended in spraying the trees than in former years. This expenditure the Trustees thought necessary as they believed every precaution should be taken to prevent damage by canker worms and other injurious insects.

Your Trustees are under great obligation to Mr. N. T. Kidder for his advice as to the removal of trees and bushes

where the moths are likely to collect. Our Superintendent has already done a good deal of work in this line.

The Trustees have made arrangements with H. L. Frost & Co., to send two of their men, who are professional moth hunters or "scouts" as they are called, to go through the cemetery with the Superintendent and direct him to do what is necessary to prevent injury from the gypsy and brown-tail moths. We shall expend whatever sum is required to prevent, if possible, the invasion of the cemetery by these pests.

Believing that we can do this very important work and also keep our grounds in good condition without an extra appropriation, we ask for the usual sum of two thousand ($2,000) dollars.

# ANNUAL REPORT OF THE OVERSEERS OF THE POOR, MILTON, MASS.

*To the Citizens of Milton:*

The Overseers of the Poor of the Town of Milton have the honor to present their report for the year 1906. The terms of office of Horace N. Plummer and Arthur H. Tucker having expired, at the Town Meeting held on March 5, they were re-elected to the Board, to serve for three years. The Board proceeded to organize with Arthur H. Tucker as Chairman, and Parker B. Field as Secretary. Joseph H. Duffy was continued in charge of the clerical work of the Board, and Albert Rounseville was re-appointed to serve as Agent. Mr. and Mrs. Calvin H. Sanford were re-appointed as Superintendent and Matron, respectively, at the Town Farm.

The appropriation of $6,500 for this year, which is a reduction of $300 over that of 1905, is, in the opinion of the Board, the minimum amount on which the work at the present time can be properly conducted. It has been found unnecessary to expend any large amount on repairs at the Town Farm during the year, but some outside repairs will be necessary in the near future.

As some of the older of the people aided in their homes have become more feeble, and required more care, they have been transferred to the Town Farm, and at the present time the full capacity has been reached.

The physical condition of some of the inmates requires the services of a nurse.

The members of the Board, realizing that little pleasure can enter into the lives of those cared for at the Town Farm, succeeded this year, as last, in interesting some of the towns people in their behalf, so that several entertainments have been given and greatly enjoyed. In response to an appeal

by the Board in the Milton Record a sufficient sum was contributed to afford all those at the Town Farm a most enjoyable Christmas.

Throughout the year books have been regularly delivered there from the Public Library.

Assistance has been rendered to thirty-six families outside the town farm. It is our intention that such relief shall shall constitute only partial support, and every effort has been made to encourage the recipients in thrift which will lead to independence of town aid. In four instances the town has been fully reimbursed by relatives for aid rendered, and in two other cases the amount spent by the town has been refunded in part by relatives.

We would again renew our request to the residents of the town owning stocks in Massachusetts banks or corporations,

and especially those purchasing stocks to have their residence given as Milton, whatever may be their post-office address.

We would also take this opportunity to thank those of our citizens who during the past year have done so.

We would also renew our request to trustees of estates to make their returns to the Commonwealth between May 1, and 10, so that the taxes may be credited to Milton.

May we also suggest that any resident wishing to become his own assessor may become so by making a return of his personal and real estate.

George W. Nickerson.
Josiah Babcock.
W. W. Churchill.
*Assessors of Milton.*
